

# Canterbury Connect

## Projects & activity update:

### CANTERBURY COMMUNITY ACTION GROUP

---

#### Christmas at Maling Road

Visitors to Maling road from late in October will have noticed a Christmas tree has been erected in Theatre place by traders as part of a precinct wide “Nut Cracker Suite “ theme.

The theme includes creating a nutcracker story across several shops with windows being wrapped in some decals to add extra atmosphere – Why not pop down and have a look!

#### Maling Road Place Plan Implementation

A 3- 6 month trial of a “parklet”, a footpath extension that involves repurposing car parks to allow more space and amenities for traders and community members using the street and will contain seating, decking and planters following mid November installation.

To ensure the safety of “parklet” users, various safety measures such as fencing, traffic safety barriers, reflective bollards and warning markers will be installed.

Installation of flood and fairy lights on three trees in Theatre Place will commence from mid November. This aims is to improve the ambience of Theatre Place and to encourage a night time economy in Maling Road and is in response to community feedback received as part of the placemaking project.

#### Canterbury Community Precinct

A contract has been let for this development, initial planning work has commenced with actual site works expected to commence on site during November.

#### Canterbury Neighbourhood Centre

The centre has called for expressions of interest from members of the community interested in joining the CNC Board of Management. Further details can be obtained by contacting Tracy Martin on 0411 252 403, by email to [manager@canterburynh.org.au](mailto:manager@canterburynh.org.au) and by visiting the news page of our website at [ccag.net.au](http://ccag.net.au)
