

Canterbury Connect

Projects & activity update:

CANTERBURY COMMUNITY ACTION GROUP

Sienna College Master Plan

Boroondara Council will shortly commence a community consultation process relative to proposed developments at Siena College.

Further details can be accessed via;

- The Boroondara Council Web site which includes all reference materials and
- <https://www.siena.vic.edu.au/master-plan>

Submissions to BCC regarding the plan must be made by close of business on Tuesday 6 July 2021.

Canterbury Commuter Carparking Feasibility Study

On their website at <https://www.boroondara.vic.gov.au/about-council/projects-and-major-works/boroondara-commuter-car-park-projects>, council advise that a feasibility study is to be undertaken with investigation works commencing late in July. The website outlines the sites under consideration, the extent of investigation works and key benefits.

CCAG have concerns that the scope of works is too narrowly focused on Maling road precinct without consideration of the Canterbury and Rochester road precincts and limited to consideration of additional parking on BCC owned land. We will consult with all parties involved and keep you informed.

Share your views with CCAG by email to secretary@ccag.net.au

Maling Road Precinct

It has been exciting to see changes to a number of property facades under the BCC sponsored facade upgrade scheme

Have you seen the decals installed in Theatre Place as part of the Place Plan aimed at bringing vibrancy and playful elements to the precinct. The decals project is being sponsored by BCC and is based on work by local artist Candy Ng with a botanical theme which features flowers native to Boroondara
